

PRODUCT DATA SHEET FOR “UNIVERSAL GRANULAR ABSORBENT”

Product	Dimensions (cm)	Weight (unit/kg)	Quantity (bag/bale)	Absorbency (unit/l)
GOGS3	65x46x9	3	1	30
GOGS10	90x50x13	10	1	100

Sorbency: test method NFT90-360 using Light Arabian Crude Oil

Features and Benefits

- Superior absorbency over the competition! 3 kg bag absorbs 30 liters of oils or water-based substances, 10kg bag – 100L
- Super light bag. Easy on your back and your logistics costs
- Natural. Safe to use

Instruction for use

It is important that a suitable and sufficient Risk Assessment is carried out on each incident and correct PPE is worn

1. Apply absorbent to the spill
2. Brush into the spill until absorbed
3. Remove waste in a suitable container

Compatibility

Before any use in a spill situation a proper risk assessment should be carried out and all hazardous properties of the liquid or dangerous reactions taken into account

Disposal

Dispose of according to local regulation
