

SPILL PREVENTION SHEILD (Land Contamination Prevention)

Product	Dimensions (cm)	Weight (unit/kg)	Quantity (bag/bale)	Absorbency (ltrs/bag)
GOM 10 Heavy mat	10 x 100 x 300	15	1	300
GOM 5 Standard mat	5 x 100 x 600	7.5	1	300

Features and Benefits

- 1 sq. meter of the cover absorbs up to 50 liters of oil
- Fireproof, non-flammable coating
- 100% hydrophobic
- Resistant to all weather conditions
- Easy to install and remove
- Used materials can be easily replaced

Instruction for use

The system effectively traps oil from catastrophic oil spills and leaks. Place Spill Prevention Shield around power generator, oil rig or wind turbine. The system is placed directly to the ground, no need to dig a ditch around the object. The chips should be placed on the top of the mat holding it in place.

Green Ocean's Spill Prevention Shield is maintenance free oil containment system that offers significant cost savings on both installation and operation.

Breakthrough Technology in Oil Spill Removal

Compatibility	Before any use in a spill situation a proper risk assessment should be carried out and all hazardous properties of the liquid or dangerous reactions taken into account
Disposal	Used sorbents may be disposed of by landfill or incineration, in accordance with local and national regulations, taking into account the classification of the liquid absorbed
Safety Data	Further technical advice is available if required
Pack	Bales GOM10 – 8 per pallet GOM5 – 16 per pallet
